CLINICAL NEUROETHICS LIBRARY

CLINICAL ETHICS GENERAL

Bernat, J. L. (2008). *Ethical issues in neurology* (3rd ed.). Philadelphia: Lippicott Williams & Wilkins.

Duval, G. (2001). What triggers requests for ethics consultations? *Journal of Medical Ethics, 27*(suppl I), 24i-29i.

Frank, A. W. (2004). Ethics as process and practice. *Internal medicine journal, 34*(6), 355-357.

Jonsen, A. R., Siegler, M., & Winslade, W. J. (1998). *Clinical Ethics* (4th ed.). New York: McGraw-Hill.

Levetown, M. (2008). Communicating with children and families: from everyday interactions to skill in conveying distressing information. *Pediatrics, 121*(5), e1441-1460.

Nilson, E. G., Acres, C. A., Tamerin, N. G., & Fins, J. J. (2008). Clinical ethics and the quality initiative: a pilot study for the empirical evaluation of ethics case consultation. *American Journal of Medical Quality, 23*(5), 356-364.

CODES OF ETHICS

Canadian Medical Association. (2004). *Canadian Medical Association Code of Ethics*.

National Institutes of Health. (2004). Guidelines for the conduct of research involving human subjects at the National Institutes of Health. U.S Department of Health and Human Services. Bethesda: National Institutes of Health.

World Medical Association. (2006). *International Code of Medical Ethics*. South

Africa: World Medical Association General Assembly.

CULTURAL, RELIGIOUS AND SPIRITUAL ISSUES

Dorff, E. N. (2004). Applying traditional Jewish law to PVS. *NeuroRehabilitation, 19*(4), 277-283.

Giordano, J., & Engebretson, J. (2006). Neural and cognitive basis of spiritual experience: biopsychosocial and ethical implications for clinical medicine. *Explore, 2*(3), 216-225.

Hyun, I. (2008). Clinical cultural competence and the threat of ethical relativism. *Cambridge Quarterly of Healthcare Ethics, 17*(2), 154-163.

Kirkland, R. (2007). "Enhancing life?" Perspectives from traditional Chinese value-systems. *Journal of Law, Medicine & Ethics* (Fall), 26-40.

Kuczewski, M. G. (2007). Talking about spirituality in the clinical setting: can being professional require being personal? *The American Journal of Bioethics, 7*(7), 4-11.

McMahon, K. T. (2004). Catholic moral teaching, medically assisted nutrition and hydration and the vegetative state. *NeuroRehabilitation, 19*(4), 373-379.

Patel, V. (2000). Culture, health systems and psychotic disorder. *Current Opinion in Psychiatry, 13*(2), 221-226.

Perkins, H. S. (2008). Culture as a useful conceptual tool in clinical ethics consultation. *Cambridge Quarterly of Healthcare Ethics, 17*(2), 164-172.

Sade, R. M. (2007). Introduction: Religions and cultures of east and west: Perspectives on bioethics. *Journal of Law, Medicine & Ethics* (Fall), 7-9.

Sarma, D. (2007). "Hindu" bioethics? *Journal of Law, Medicine & Ethics*(Fall), 51-58.

Solomon, D. (2005). Christian bioethics, secular bioethics, and the claim to cultural authority. *Christian Bioethics, 11*(3), 349-359.

Tsosie, R. (2007). Cultural challenges to biotechnoloy: Native American genetic

resources and the concept of cultural harm. *Journal of Law, Medicine & Ethics*(Fall), 396-411.

DISORDERS OF CONSCIOUSNESS

Andrews, K. (2004). Medical decision making in the vegetative state: Withdrawal of nutrition and hydration. *NeuroRehabilitation, 19*(4), 299-304.

Applbaum, A. I., Tilburt, J. C., Collins, M. T., & Wendler, D. (2008). A family's request for complementary medicine after patient brain death. *Journal of the American Medical Association, 299*(18), 2188-2193.

Ashwal, S. (2004). Pediatric vegetative state: Epidemiological and clinical issues. *NeuroRehabilitation, 19*(4), 349-360.

Baumrucker, S. J., Stolick, M., Morris, G. M., Carter, G. T., & Sheldon, J. E. (2007). Brain death and organ transplantation. *American Journal of Hospice and Palliative Medicine, 24*(4), 325-330.

Bernat, J. L. (2006a). Chronic disorders of consciousness. *Lancet, 367*(9517), 1181-1192.

Bernat, J. L. (2006b). The whole-brain concept of death remains optimum public policy. *Journal of Law, Medicine, & Ethics, 34*(1), 35-43.

Bernat, J. L. (2007). Can functional MRI detect awareness when a neurological examination does not? *Nature Clinical Practice Neurology, 3*(9), 490-491.

Boly, M., Faymonville, M.-E., Schnakers, C., Peigneux, P., Lambermont, B., Phillips, C., et al. (2008). Perception of pain in the minimally conscious state with PET activation: An observational study. *Lancet Neurology, 7*(11), 1013-1020.

Eisenberg, J. B. (2008). Schiavo on the Cutting Edge: Functional Brain Imaging and its Impact on Surrogate End-of-Life Decision-Making. *Neuroethics, 1*(2), 75-83.
